Hon. Mr. Langevin at Burrard Inlet.

On Saturday last Hon Mr Langevin, O B, accompanied by the President of the Municipal Council (Mr O'arkson) and Messrs Nelson, Holbrook, Claudet, Archibute and Finlayson, proceeded to Burrard Inlet. At Brighton the party were met by Messrs Charles Hughes and S P Moody. A small steamer was placed at the disposal of the party, who crossed by her to Moody, Deiz & Nelson's Mills, where a sumptuous breakfast was provided. After inspecting the establishment, they sailed to the head of the Inlet and ascended the North Arm. Returning, they visited Moody & Co's spa camp and witnessed the descent of a number of spars from a slide nearly half a mile long. As each spar struck the water the spray ascended to a height of 300 or 400 feet and the rays of the sun falling upon the jets imparted to them the varied and beautiful tints of the rainbow, a novel sight even to the honorable guest who has been accustomed to the scenes about the great lumbering works of Old Canada. Upon returning to Moody & Co's Mills, dinner was partaken of. The party then visited the ships loading at the Mills, upon the decks of some of which lay spars 90 feet long and 30 inches through, clear and clean. Mr Langevin himself measured logs lying in the boom and found them to be six feet in diameter. The party then visited the Narrows and English Bay and returned via Hastings Mills, where they were kindly received and hospitably entertained by Mr Alexander, who showed them over the Mill, which is employing a large number of hands and running full time. The party then returned to New Westminster, reaching there at nine o'clock in the evening. While showing a party over a French ship at Moody's Mills, Mr Brew, Customs House Officer, fell from a ladder into the hold, and for a time was thought to be very seriously injured. He subsequently recovered and seems to have escaped with a few bruises.

Puncheon in England.

The Rev Morley Puncheon, President of the Canadian Wesleyan Conference, delivered an eloquent and interesting address before the British Conference, at Manchester, on the 25th July. In rising to speak, Mr Puncheon was greeted by the whole audience standing up and cheering. In the course of his address he referred to his visit to this Province, and made the following not very flattering allusion to our Indians:—"There were those who had a strange weird belief concerning former existence in inferior shape, leading him to the conviction that Dr Darwin's theory of the descent of man had not even the merit of originality—(laughter and "Hear, hear,"—but was an unconscious plagiarism from the Indians of the Pacific coast."

Referring to Canada he said:—"When a Fenian invasion had been put down by her own brave volunteers, she ought not to be subjected to the mortification of hearing the national representative of England express thanks to other parties as if they had done the deed—parties by whose consent or connivance the conspirators were allowed to drill, march and organize, and start upon their miserable enterprise, and who never interposed until the whole thing proved a fiasco and a failure. She ought not to be made to feel that, when England got into a difficulty they were very anxious to sacrifice the interest of the Dominion with a very little amount of self-denial, and that we appreciated that terrible Abah who cast his eyes very lovingly upon Naboth's vineyard."

These are words of truth and wisdom, spoken by a loyal Englishman, to which the "old folks at home" would do well to give heed.

Exploration Path.

It was the original intention that Mr Mahood and his surveying party should seek Tete Jaune Cache by the circuitous route of the Fraser river, embarking in small boats at Quenelmouth. Before the building of the fleet of boats necessary for such a voyage had made much progress, Mr Mahood became convinced that the Cache could be reached much more quickly by land, and the consequence was that a train of pack animals was procured and the attention of the party turned from boat-building to cutting a path through the forest. It will be seen by an extract from a letter received in this city by last express, that the party had reached a point 30 miles north of Barkerville on the 29th ult. As Mr Mahood suggests, the trail made by this party will be of the greatest advantage as a path for explorers and prospectors.

Our Resources.—While on his way to and at Cariboo Hon Mr Langevin took every means to obtain reliable information with respect to our resources. Samples of agricultural products were obtained, and the altitude at which each was grown, the yield per acre, the availability of water for the purpose of irrigation, the mean temperature, etc, etc, were all carefully inquired into and noted for future reference. At Cariboo the honorable gentleman was untiring in his inquiries as to the yield of the mines and their probable permanency.

Three English tourists, Mr and Miss Walker and Mr Gardner, succeeded in making the ascent of the Matterhorn on the 22nd ult. Miss Walker is the first of her sex who has had courage to grapple with the great difficulties experienced in reaching the summit of this mountain, which is 14,850 feet high.

The Hon. Minister of Public Works.

The Hon Mr Langevin, C. B., returned from the Mainland on Sunday. At every point he was the recipient of marked attention, and at Cariboo and New Westminster was presented with addresses to which he replied in appropriate terms. On Saturday last he visited Burrard Inlet accompanied by Messrs Claudet, Nelson, Holbrook, Barnard and Clarkson, and inspected the extensive mills at Hastings and Port Moody. Upon the arrival of the Enterprise at Victoria Mr Langevin was driven to Government House where he is the guest of Lieut-Governor Trutch. Yesterday Mr Langevin received a number of gentlemen at Government Buildings. Mr Langevin will assist at the laying of the corner stone of St Ann's Convent School today, and in the evening he will dine with the citizens of Victoria at the Mechanics Institute Hall. Tomorrow morning Mr Langevin will embark on the Sir James Douglas for Seymour Narrows, and upon his return to this port will sail in H.M.S. Sparrowhawk for Barclay Sound. On Friday of next week the hon gentleman will sail on the steamship Prince Alfred for California and home.

Royal Insurance Company.

An idea of the immense and increasing business of the Royal Insurance Company, Fire and Life, may be gathered from a perusal of the Directors' report, which was adopted unanimously at the annual meeting held August 4th. From this report it would appear that the profits for the year of the fire department exceed \$300,000, and that the net fire premiums reached the enormous sum of \$2,500,000! The life business of this great corporation has increased largely and there has been a coincident diminution of losses. The agency in this Province shows a correspondingly large increase of business. The success of the Royal in both hemispheres and in all countries has been almost marvellous, and bears unimpeachable testimony to the shrewdness and sagacity of the trustworthy men who conduct its affairs.

County Court.

Before A F Pemberton, Esq.
Monday, Sept 11, 1871.

Davies vs Grahamam.—This was an action for damages caused by defendant pushing plaintiff's son through window. Defendant did not appear, and a verdict was rendered for plaintiff for \$340 with costs.

THE NATHAN JUVENILE TROUPE.—This theatrical troupe, whose fame has preceded it, arrived on Sunday and will give a first performance at the Theatre Royal in this city tomorrow evening. Looking over the numerous press notices before us, chiefly from Australian papers, we are led to conclude that the troupe possesses talent of no common order, and we congratulate this community upon the rare treat in store for them. The chief feature of the troupe appears to be the youngest—Marian Nathan, the "infant phenomenon"—who never fails to charm and astonish the audience. The diversity of talent and the proficiency and wonderful versatility of each member in the particular branch assigned imparts to the performance a completeness and an interest which renders it eminently entertaining. We trust this talented company will be enabled to make its debut before a good audience.

A GRACIOUS AID.—In order that Mr Nelson, (Member for New Westminster) Mr Geo Watt, Mr Barnard, Mr Brown, Mr Fisher, Mr Franklin and other gentlemen from the Mainland may have an opportunity of being present at the banquet to be given to the Hon Mr Langevin this evening, Mr Graham, head of the Hudson Bay Company here, issued instructions yesterday for the Enterprise to lie over one day. Consequently she will not sail till tomorrow morning at 4 o'clock. Thus the public are accommodated and a graceful compliment is paid to a Canadian Minister.

"JERMS PIPES OF PIPESVILLE."—Mr Stephen Massett, now at Portland, Oregon, will arrive shortly to give a series of readings, recitations, imitations, musical illustrations, songs and ballads. Mr Massett has given similar entertainments in the principal cities of England, Australia, East India and the Eastern States and has always met with the warmest eulogiums from his audiences. We look for a delightful season with Mr Massett.

LOCAL BREXITING.—On Sunday Fred Reynolds received 35 head of beef cattle just from the bunch grass of Smilkameen. The Enterprise arrived on Sunday from New Westminster. The Mechanics Institute Library has been replenished with 100 volumes from Mudie's, London. The Princess Royal has been chartered to load with spars for Cork. The Gussie Telfair arrived on Sunday from Portland.

CARIBOO SUMMARY.—Revision Courts were being held throughout Cariboo. Capt Evans, Mr G A Walkem and Mr O Booth are candidates for the local House, and Mr J S Thomson for the Commons. Julia Picot's house was burned by an incendiary. Hon Mr Langevin was well received everywhere. The hon gentleman was present at the wash-up of a rich claim.

ST ANN'S CONVENT SCHOOL.—The cornerstone of St Ann's Convent School on Humboldt street will be laid to-day at 3 o'clock by His Honor the Lieut Governor. Hon Mr Langevin, Minister of Public Works, has consented to be present. A religious ceremony pertaining to the occasion was performed yesterday at the Cathedral.

NEW WHARF.—Mr T S Allatt is engaged in demolishing the old Yates Wharf at the foot of Yates street and will construct in its stead a substantial new one. The present structure has long been considered unsafe—many of the piles being entirely eaten away by the marine worm.

FUNNY AX-IDENT.—In his "leader" on Ax-idents yesterday the Standard boss says he stand "froth as the moutpiece of the public." We have no doubt the Boss does froth; and he will foam, too, after the 12th October.

THE STEAMER SIR JAMES DOUGLAS sailed for the East Coast yesterday morning. Among her passengers were Messrs Sabiston and Pawson, and Mrs Reynolds. She will return this evening.

SHE OUGHT TO KNOW.—Miss Annie Pixley denies the truth of the published report that she is married.

DISMISSED.—The case of Pamphlet vs Devereaux for obstructing the harbor by throwing rubbish therein was before Mr Pemberton yesterday and was dismissed.

THERE is a demand for houses at Portland.

Getting it Back with Interest.

The friends of Henry Nathan, Jr, in Washington Territory take great interest in his election to Parliament. He is regarded as a liberal candidate and in favor of ultimate annexation.—Victoria Standard.

There are very few people in Washington Territory who take the slightest interest in British Columbia affairs, political or otherwise, and they are perfectly indifferent about the election of Mr Nathan or any one else in his place, and don't care a twopenny whether they have any elections there at all or not. The further announcement in the above extract in reference to Mr Nathan being in favor of annexation will rather surprise what acquaintances he has on the Sound, as he has always been regarded by them as being opposed to any such measure. Mr McMillan of the Standard is our man—as he is the only candidate known here as being in favor of such a project.—Scott's Intelligencer.

REPAIRS TO THE STEAMER CALIFORNIA.—The Portland Herald says:—This steamer, which is lying at McCracken & Co's wharf, is undergoing extensive repairs. She is receiving new furnaces, the interior of her boiler will be entirely new and her engines will be repaired so as to make them as good as new. As soon as the work to her machinery is completed she will be painted and refitted in such a manner that she will be the equal of any steamer on the coast. She will not be able to resume running for five or six weeks yet.

THE SURVEY.—A letter has been received from Mr Mahood, dated Indian Point Lake, 30 miles north of Barkerville, 29th of August. He is going across the country from Barkerville to Tete Jaune Cache, and says: "I am now going across the country with a small pack train, cutting a trail. I have two trains of provisions (75 animals) following me. This trail alone, even if nothing more should ever be done, will be everything for Cariboo. Prospectors will now have a chance of getting into a hitherto inaccessible region supposed to be auriferous. I expect any number will follow me."

PUGST SOUND ITEMS.—A successful concert in aid of the Good Templars was given at Port Townsend. The two Victoria thieves have been convicted of robbery at Port Townsend and sentenced to three years' penal servitude. James G Swan has been admitted to practice as a lawyer. Rev Mr Kimball is at Walla Walla, where the smallpox is also. The schooner Alaska has returned from Okhotsk Sea with 110,000 codfish.

OMINGA.—A letter received by Dr Matthews states that the Upper Discovery and Tabogan claims on Germanes are paying from \$30 to \$50 per day to the man. On Last and Manson creeks, the letter says, there are some very rich claims, and Victoria will be surprised next fall at the developments made. The only drawback to the diggings is the high price of provisions.

PUBLIC WORKS.—Hon Mr Langevin, Minister of Public Works, yesterday made an examination of the Government buildings on Government street, and also of the Police Barracks and Goal with a view to having buildings erected more suitable for the Dominion service than the present structures. The hon gentleman was accompanied by His Honor the Lieut-Governor and A F Pemberton, Esq.

EQUIMALT COURT OF REVISION.—Yesterday the Sheriff opened a Court of Revision for Equimalt Voting Division. Mr R Jackson appeared to watch the interests of parties to whom objections had been entered. Sixty were corrected and only one—R Semple—struck off. The Sheriff will finish and polish off the business to-day.

VANCOUVER DISTRICT.—It is said that De-Commas has seen Bunster and that the last named gentleman has concluded to withdraw from the canvass of Vancouver District and will devote his talents, his eloquence, his energies and his persuasive faculties to canvassing Victoria District for the local House.

THE STEAMER NORTH PACIFIC, Capt Taylor, arrived from Olympia and way ports yesterday at 3 p m, bringing a small mail and about 30 passengers. She will sail at 12 m to day. Purser Taylor and Mr Crosby, Wells Fargo's Messenger, have our thanks for files of late Oregon and W T papers.

DR BOURNE of San Francisco is to be found at the Colonial Hotel until Friday morning, 16th inst, and may be consulted in relation to health and disease by those who are tired of medicine and would acquire knowledge of a better way.

STANDARD LIFE ASSURANCE CO.—The surplus fund divided among the policyholders in 1870 amounted to £331,591. The annual income is £700,000; invested funds upwards of £4,000,000. Mr Robert Burnaby is Agent in this Province for that great company.

EQUIMALT COURT OF REVISION.—The Sheriff sat yesterday at Equimalt. Fifty qualifications about which objections were entered were corrected and the Sheriff will sit again to-day to make further corrections.

CHILDREN'S PARTY.—Admiral Farquhar has issued invitations for a Children's Party on board H M S Zenobia on Thursday afternoon from 3 to 5 o'clock.

OFF.—At Maple Bay three names were struck from the Voters' List. At Salt Spring, one head was cut off.

COMMONS.—It is feared that the elections for the House of Commons cannot be held simultaneously with those for the Local House.

DRUNK.—Bill, a Soughish Indian, for being drunk and disorderly, was yesterday fined five shillings.

THE WILLOWS.—The picnic at The Willows on Saturday was largely and respectfully attended.

EDITORIAL.—We were last evening gratified with a call from S L Maxwell, Esq, of the Seattle Intelligencer.

DEAD.—Charles Thornton, an actor and former lessee of the Theatre Royal, died recently near Chicago.

Public Dinner.

The public dinner in honor of Hon H L Langevin, O B, will come off this evening at Mechanics' Institute Hall. Hon Dr Helmcken will preside, with Dr Powell and Robt Burnaby, Esq, in the Vice-Chairs. The dinner—which will be provided by the renowned Astrico—will be served at seven o'clock precisely. About 130 gentlemen will be present.

Wonderful Disappearance.

EDITOR COLONIST.—The Standard man has taken Mr Heaven under his wing. So much the worse for Mr Heaven. But I should like to know how it happens that the name of "Amor DeCosmos" appeared fifth on the copy of the requisition to Mr Heaven that was passed round for signature, and that in both of the printed copies the name of "my partner, Mr Long, gentlemen," appears in its stead?

There are two ways in which the change may be accounted for. In the first place, Mr DeCosmos—who is said to be fond of "change" (sovereigns preferred) may have swapped names with his partner (for one time only); or he may have thought that the appearance in print of his name on a requisition asking a Canadian tariff man to stand would ruin his prospects in Victoria District. Be it as it may, in the copy circulated the missing name appeared, as many are prepared to testify, and some refused to pledge themselves to Mr Heaven in consequence.

Yours truly, SNIP-SNAP.

BOSTON, Sept 10.—The coroner's jury on the Eastern Railroad accident agreed on their verdict to-day, and find that the collision was caused by the negligence of John S Nowland, conductor of the Beverly train, and A S Brown, engineer of the Pullman train. Lunt, depot master at Boston, was also found guilty of neglect of duty in not transmitting orders. The President and Directors of the E Railroad are also held responsible for the disaster and consequent loss of life.

Hudson, N.Y, Sept 10.—The meeting of the members of St Mary's parish was largely attended and the action of the vigilance committee on Friday in resolving to resist to the last the action of Father O'Sullivan over the church was unanimously endorsed. A strong guard was placed around the church last night. This morning Father O'Sullivan did not appear and no service was held.

WASHINGTON, Sept 10.—The Commissioner of Internal Revenue has decided that articles liable to the stamp tax in schedule C must have stamps affixed before they leave the premises of the manufacturer, irrespective of kind. The packages employed for putting the same into market, whatever may be the size, or what is termed packages in bulk, must have a stamp or stamps of the value indicated by the retail price or price received for a single package and its contents. The dealer may sell directly from a package which has been properly stamped, according to the price paid for the package and contents, without affixing additional stamps, but a dealer who breaks an original package, repacking its contents into smaller packages and putting on his marks, will be required to stamp the small packages when offering them for sale. The manufacturer in every case must stamp the packages in which he delivers goods to customers, whether the customer furnishes his vessel for the reception of the article or whether it is furnished by the manufacturer.

DELAYED DISPATCHES.

Europe.

DUBLIN, Sept 5.—There was fighting all night. The police were driven into their barracks but received reinforcements and charged the crowd. They were driven into their barracks again. The rally was repeated several times with the same result. A bar of iron thrown from a public house led to the entrance of the house and capturing of its inmates. An attempt was made to rescue them by the mob in which a riot followed. The house was completely wrecked by the mob in frantic rage. Half of the police engaged in the affair were injured. Prisoners sang national songs all night. There is great excitement, and increasing. Prisoners cheered, police hissed and women helped the rioters.

California.

SAN FRANCISCO, Sept 6.—The vote is coming out this afternoon quite strong. It is safe to say that the "Tax-payers' Municipal ticket is elected from 1,000 to 2,000 majority.

Booth, up to 4 p m, was generally conceded to be largely in the lead. Haight and his friends are confident he will carry the city by 500 to 1,000 majority. Towards evening the Democratic vote was increasing and scratching decreased. Not a hundred Bell-ringer tickets were voted so far in the city. The vote is quite full and owing to the scratching it is impossible to get a complete or reliable return for the city before to-morrow evening.

Even bets are being freely offered on Booth and Alvord both carrying the city.

No arrests have been made so far, and a more quiet election was never seen in this city.

The State and Legislative tickets are very close.

The friends of Booth and Haight both claim the city by 5,000 majority. It will require the official count to decide.

On the Municipal ticket it is generally conceded that Curtis (Dem.) is elected Mayor. Rosner (Dem.) Assessor. Kloppenburg, (Dem.) Treasurer, with a strong probability of Humphreys, Surveyor, and an even chance on Letterman, while the Tax-payers will probably elect Adam, Sheriff; Higgins, Recorder; Harney, County Clerk; Murphy, District Attorney; Torrey, Fire Commissioner; Edwards, Harbor Master, and the entire list of Justices of the Peace.

In the Fourth Ward, the negro vote elected Tim M.Carthy, Independent or Rug Supervisor, and about twenty eight per cent of it went for the Democratic State ticket. Moglynn, Rep, for Harbor Commissioner has a majority in the city.

A prominent mining operator and Democratic politician, deposited \$10,000 in coin at the Lick House bar at 8 p m, to-day, to be bet even, that Haight is the next Governor, and says he has \$40,000 more to put up on the same terms. The amount is being rapidly covered by the Republicans.

REMEMBER THE FATE OF ABALOM.—Fred Fayne, Tonsorial Artist. Shaving 12 1/2 cents. Hair Cutting 25 cents. Shampooing 25 cents. That Original Cheap Shaving Shop stands on the sunny side of Johnson Street.
